

CTR Scalex

A concentrated acidic cleaner which may be used for a variety of purposes depending on the dilution. Its blend of acids provides fast, effective scale and rust removal. Safe to handle when used according to directions and is colour coded orange for easy identification.

Outstanding Performance

Safe to handle

Fast, effective scale & rust removal

Multi-use product

Acidic-blend formula

Easy to Rinse

2 year shelf life

Colour coded labelling

CTR Scalex

Use Instructions

Coffee Urns:

Add 200mLs - 400mLs of Scalex per 5 litres of hot water. Allow to stand without boiling for 15 minutes. Drain urn and rinse thoroughly with fresh, clean water.

Dishwashers:

Dump the wash tank and rinse out detergent residue. If connected to an automatic dispensing unit, ensure it is switched off.

Spray or brush neat Scalex over heavily scale encrusted internal areas. Add 2-4 litres of Scalex to the fresh water filled wash tank and wash for 3 minutes. If scale is still present, wash for a further 3 minutes. Once clean, drain the wash tank and rinse with fresh water.

Tiled Floors:

To remove excess grout from tiled floors, dilute 200mLs of Scalex per litre of water. Mop over area liberally, scrub and rinse off.

Toilet Bowls:

Dilute 1:6 to 1:18 depending on the soil level and frequency of cleaning.

NOTE:- This product is not to be used in medical applications (SSD's). When treating metal items the concentration and time parameters must be adhered to.
